

HARRISBURG, Pennsylvania (April 2, 2018) — Higher annual maximums are now available from United Concordia Dental to give members more flexibility when it comes to covering the cost of dental care.

“Some of our members require higher annual maximums because of family or personal dental needs,” said Tim Constantine, president, United Concordia Dental. “These higher maximums help member premiums go farther by making more benefit dollars available for covered dental procedures.”

The new higher maximums – available to any employer group with two or more enrolled employees – include \$10,000, \$20,000 and unlimited maximum levels on most plans.
