Brokers can now easily submit and send required enrollment data to United Concordia Dental via Ease.

CAMP HILL, Pa. (May 23, 2022) — United Concordia Dental, a national dental solutions partner, has partnered with Ease, a leading HR and benefits software solution for small businesses (SMBs), insurance brokers and insurance carriers, to make it easier to transmit enrollment and benefit information.

“Ease empowers insurance brokers and carriers to offer better service to employers and their employees through simple software that helps them manage their health benefits, including dental,” said Tom Palmer, senior vice president, Sales and Service, United Concordia Dental. “This partnership is another example of how we are continuously investing in technology and improving customer touchpoints to make it easier to do business with us.”

With this connection United Concordia Dental becomes the latest EaseConnect partner, enabling brokers to safely and securely submit enrollment data and changes directly from Ease to the dental solutions partner. With EaseConnect carrier connections, broker agencies set up and manage group connections directly with their carrier partners in Ease.

“Moving the enrollment process online increases efficiency, improves the customer experience and makes connecting and sharing information easier for everyone,” added Palmer.

“We’re excited to add United Concordia Dental as an EaseConnect partner,” said David Reid, CEO of Ease. “Our EaseConnect partners are some of the best carriers in the country, and United Concordia Dental is a natural fit. This new connection will allow our brokers to offer the large-group benefits experience to their SMBs.”

###
